Polycystic Ovary Syndrome (PCOS)

3.165% (5 Million) Of Women In US

wo Health burden of over \$4 billion dollars in the United States alone $ilde{ exttt{o}}$

- » Most women are diagnosed during their twenties or thirties, but PCOS may affect girls as young as 11 who haven't even had their first period. ⁽⁴⁾
- Women are at higher risk for PCOS if they have a mother or sister with PCOS or are obese^{①⑤}
